Re: Response to Item No. 3 Notice of  
Violations and Order Docket No. I91-03

Dear Mr. Kluksdahl:

We have reviewed your letter dated April 26, 1991 and a letter dated April 25, 1991 signed by Ms. Debra Brannum of Tenneco Company, regarding the referenced matter. The letters are in fulfillment of Item No. 3 for an implementation plan and schedule for restoration, remedy and upgrade of the process ponds and storm water conveyance structures and appurtenances. These letters also satisfy comments of our letter dated April 18, 1991, with the exception of calculations demonstrating the adequacy of the size of the storm water diversion channels accommodating the 100-year storm event. We recognize that additional information will be forthcoming.

If you have any questions or wish to discuss this issue further please call Lyle Stott at 538-6146.

Sincerely,

Don A. Ostler, P.E., Director  
Bureau of Water Pollution Control
